Chapter 1: Personal Finance Part 1

Personal Finance is an important subject for young families. Many people study personal finance to understand how money is managed. In practice it depends on income and saving habits.

Personal Finance in practice 1

Section 1 looks at personal finance in more detail. Experts recommend starting with the basics before moving to advanced ideas, and checking each step carefully.

1. First point about income and saving habits number 1
2. Second point about how money is managed number 1
3. Third point about young families number 1

A common mistake is to ignore income and saving habits. Readers who keep notes on how money is managed usually find later chapters easier to follow.
